

How to print a booklet/pamphlet with cover in Mac OS

1) Open the Paper Feed screen in the driver. Click on the radio button to the right of **First Page From:** Select Bypass Tray (Color) and set **Remaining From** to Plain. (See the image below)

2) Open the Printer Features screen in the driver. Click on the arrow button to the right of Pamphlet Style. Select your pamphlet style (size). Tiled will be full size and require 11x17 paper. The 2-Up will require 8 1/2 x11 paper.
